

Peer Leadership Day

By Max O'Shea 5C

After morning tea our school as well Marton, Heathcote East and Yarrawarra went out the front of the library and played a game called "human board game". This is how you played the game, we first had to get two blank palm cards and write 1 good thing you did to the environment and 1 bad thing you did to the environment plus 1, 2 or 3 spaces forwards or backwards. Then the environmental instructor pulled out her giant dice and giant board game. Then had we had to choose two teams and the teams were Yarrawarra and Heathcote East vs. us and Marton. You had to role the giant dice and what number it landed on was how many steps you took on the board game. Then we had to choose a card, if it was a bad card you went back spaces, if it was a good card you had to move forwards some spaces. Heathcote East and Yarrawarra won. After that it was time to go to the top oval and play a game called "blue caterpillar". First you had to get into this blue wheel and walk on it until you get up to the stopping point where the leader had to get out and get a jiffy and a pot and then get back in and go back to the starting point. Then the leader had to get out and put the jiffy into the bucket of water and then go back up again and get the seeds and then come back down. The jiffy was ready to be put back into the pot and then put the seeds into the jiffy. Then go back up again and get the water and come back down and water the seeds, we had one hour to do it. We came back with three pots and won. Then we went back inside the library and learnt about what is leadership with Mr. Walters and did a worksheet about leadership up until lunch.
