

S.L.I.P.S LEADERSHIP PROGRAM AT HEATHCOTE HIGH.

ENVIRONMENTAL PLANNING

Environmental Planning was one of the last topics we discussed for the day.

We started by introducing ourselves to everyone, then we got straight into it and Started making a wish list of things that we would like to change in our school, and discussed why.

Here are a few ideas that Max, Liam, Chylene and I came up with.

- Get more bins / new bins / reuse old bins.
- Re-initiate low waste lunches.

We then chose one of the topics that we had discussed and focused on it a little further.

Firstly we started to think how we could reuse our green bins in the school and how to make them more useful.

We thought of different types of bins that we could get so that the cockatoos cant get into them, also painting the bins nice bright colours was another idea we discussed to help keep the cockatoos from ripping the rubbish out of our bins and making our playground a mess.

ENDING OUR LEADERSHIP DAY

After discussing our Environmental Planning topic, we were asked to vote. I gave the day at Heathcote High a 9/10. We then thanked all the teachers involved for helping us and organizing such a wonderful day, with a box of Favourites chocolates each.

Overall I had a great day full of fun and meeting new people and also learning how to be a wonderful leader.

I would also like to give a quick mention to Miss Pepperell for nominating me and supervising the 4 of us for the day. I would not have had such a great day if it wasn't for Miss Pepperell and all the staff at Heathcote High.

Thank you very much.
